

"Building Cannot Be Viewed Simply In Isolation, It's Only Meaningful As A Human Environmnet"

Mutualism Between Structure And Human

- structure in the context of its temporal extension
- - structure exists as part of an intention
 - building arise from natural surrondings

A Responsive

Speculations

- Comuter-Assisted Design Procedures
- Unified Theory Of Architectrue And Other Fields
 - Archiecture As Social Control
 - Mutualism Will Be Emphasized Over Mere Functionalism
 - Reactive Envrionment Aided By Modern Technology

System Thinking

Interconnectedness

By Looking At It In Terms Of Wholes And Relationships
